

Ledgestone Series - Raphael Collection - Riviera Series

NG Stone

# *Ng Stone History*

NG Stone Products Limited is brought to you by a Canadian family that has over 90 years and four generations in the manufactured stone business. Our family has been directly responsible for most of the manufactured stone developed and used across Canada and into much of the USA.

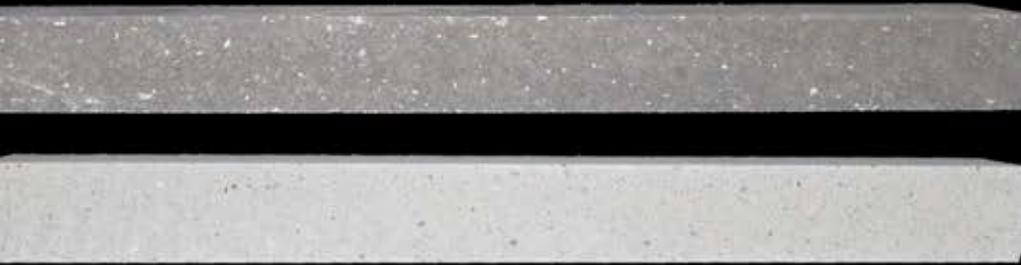

We have been responsible for more full bed manufactured stone over a longer period than any competitor anywhere.

## *Accessories*

## *Window Sill*

*3" x 6" x 36" Inch*

## *NG STONE PROCESS*

*The current NG Stone process replicates nature. In nature stone was formed by layers of fine sand deposited at the mouths of ancient rivers, building up through the millennia allowing the weight from above to compress the sand and stone to form.*

*In the NG stone process our special sand/aggregate mix is exposed to high pressure in our uniquely designed presses ensuring a high density fine grained stone.*

## *LIFETIME WARRANTY*

*We warranty our products for the life of the building provided the product has been properly installed, is in accordance with applicable building standards and that the building is properly maintained.*

*Please ask your dealer for a copy of the NG Stone Product Warranty.*

## *APPLICABLE STANDARDS*

*While the make up of NG Stone Products is unique, the applicable standard is CSA A-165.*
